

HydrX™ Fuel Conditioning System Sump Assembly

CUSTOM CONTAINMENT FOR HYDRX FUEL CONDITIONER

Part Number: TSM363630B-3B1-HYDRX (complete installation kit)

The new HydrX Fuel Conditioning System Sump Assembly is a highly compact and efficient solution designed for ease of installation for both the HydrX 250D and 500D Fuel Conditioner models. Measuring just 36"x36", this assembly offers the smallest footprint possible for the HydrX, making it ideal for tight spaces.

FACTORY-DESIGNED MOUNTING SYSTEM

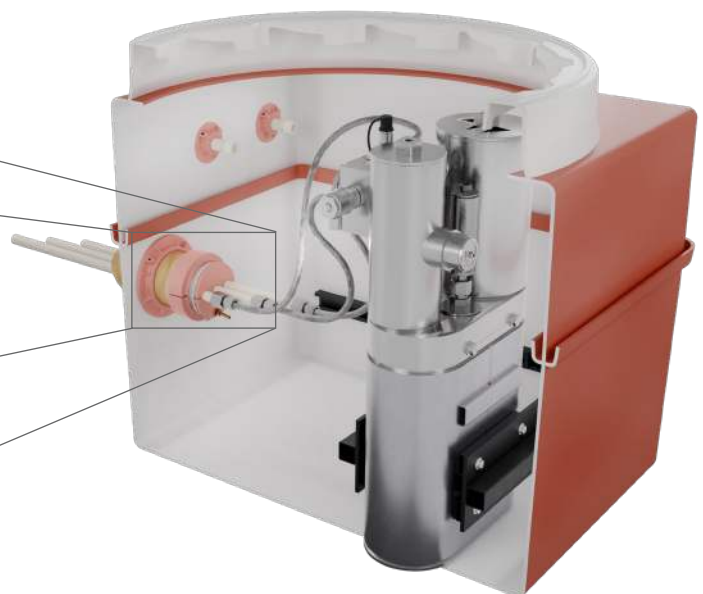

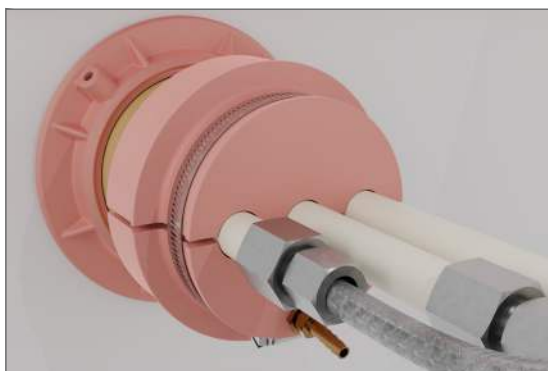

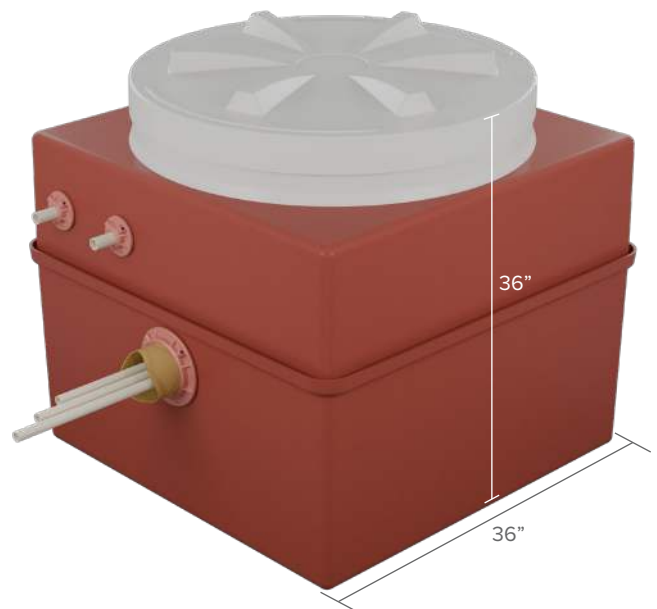

Factory-designed hardware simplifies field assembly, ensuring a faster and hassle-free installation process.

SINGLE PIPE BETWEEN HYDRX & EXISTING SUMPS

Fitting kit includes specialized penetration fittings, crafted specifically for the HydrX. These custom fittings allow for a single pipe to run between the HydrX and the existing sump.

COMPACT & DEDICATED DESIGN

Compact design minimizes footprint on existing sites. Dedicated sump eliminates the need to access STP equipment during routine maintenance.

The HydrX™ Fuel Conditioning System is a trademark of The Veeder-Root Company.
